Problem Statement:

Finding parking in and around UofSC campus is something almost every commuter has experienced. At times students either miss class or get parking tickets because students cannot find parking spots in a timely manner. This also contributes to traffic congestion seen around campus. Our solution allows students to find any available parking spots and can potentially help traffic congestion.

Who is experiencing the problem?

Students that are commuting to UofSC.

What is the Problem?

Students are wasting time and getting unnecessary stress placed on them trying to find parking spots around campus.

Where does the problem present itself?

On UofSC campus.

Why does it matter?

A Lot of time and resources are being wasted because at peak hours trying to find parking is daunting. This is fertilizing traffic congestion around campus and leading to unnecessary stress for students.
